

DAILY WATER SUPPLY SYSTEM STATUS UPDATES

Water supply status update by exception (i.e., areas affected due to supply constraint and not service interruption from occasional pipe burst). **Monday, 19 February 2024 (Morning)**

REGIONS

UNPLANNED MAINTENANCE

Sandton 1 and 2 meters closed due to high demand

Due to the overall high demand on Johannesburg Water's systems, which severely affected the bulk supplier Rand Water's capacity, the Sandton 1 and 2 meters have been closed. This is part of the Entity's water management strategy, and to provide relief to the overall system.

Furthermore, as part of internal interventions, Johannesburg Water will throttle all the Sandton system's reservoir outlets today to retain and therefore improve capacity in the systems.

The areas supplied by the Linboro Park and Marlboro direct feeds will be affected by no water.

Furthermore, all Sandton areas supplied by the reservoirs and towers will be affected by poor pressure to no water, especially high-lying areas.

Johannesburg Water will monitor and provide further updates as the situation improves.

Water issues in Craigavon and Cedar Lakes

Johannesburg Water is aware of low pressure to no water issues, every day. The depot is currently investigating the cause of these issues. In the meantime, water tankers have been arranged for the affected areas.

Locations of water tankers:

Craigavon:

- Cedar Acres Estate
- Fourways Estate
- Dakarai Lofts

Cedar Lakes:

- Bishops Field
- Cedar Lakes Estate

Cedar Creeks:

- Clovelly Crescent
