Daily water supply system status updates: Thursday, 05 January 2023 (Afternoon)

Water supply status update by exception (i.e., areas affected due to supply constraint and not service interruption from occasional pipe burst).

Unplanned Interruptions

1. Cornelius street and JG Strydom in Weltevredenpark

Johannesburg Water wishes to inform customers of vandalism on PRV fittings that occurred at the corner of Cornelius Street and JG Strydom in Weltevredenpark. This has resulted to low pressure to no water in some of the streets in the Allen's Nek area. The team has opened a bypass to supplement water supply in the area.

Johannesburg Water has made arrangements to build the chamber in order to protect the fitting from vandalism.

Johannesburg Water apologises for the inconvenience caused to residents.

Residents are again requested to observe level-1 water restrictions implemented from 1 September to 31 March, which prohibits the use of hosepipes to water gardens, wash cars, clean driveways but use grey water instead, fill up swimming pools and water features between 6 am and 6 pm. This is to ensure that systems are kept stable throughout the coming months. We urge residents to report any form of vandalism and theft of water infrastructure to 0800 00 25 87.

Residents are encouraged to subscribe on our website, to our SMS notification service for alerts on planned or unplanned service interruptions.
