Daily water supply system status updates: Wednesday, 18 January 2023

(Morning)

Water supply status update by exception (i.e., areas affected due to supply constraint and not service interruption from occasional pipe burst).

Unplanned Interruptions

1. Higher water demand impacts several Johannesburg Water infrastructure.

High water demand continues to impact the recovery of several Johannesburg Water systems.

Infrastructure progress update:

- Honeydew reservoir:
Improved levels noted.
- Randjieslaagte reservoir:
Slower progress noted. Reservoir is at low levels
- Hursthill 1 and 2 reservoirs:
Hursthill 1 reservoir level is low.
Hursthill 2 reservoir is critically low to empty. Customers in the higher lying areas of the Hursthill systems are experiencing no water and low pressure.

Johannesburg Water requests that customers in the lower lying areas use water sparingly, which will assist in the restoration of the critical systems.

Level 1 water restrictions are in place, and customers are urged to report major bursts and leaks in order to reduce strain on these systems.

Johannesburg Water apologises to customers for the inconvenience caused.

Planned Interruptions

1. Suburbs Affected: Jabulani; Jabavu; Central; White city; Moroka; Moletsane; Tladi; Phiri; Senoane; Zola south; Dhlamini; Mofolo South; Mofolo Central

Date & Time: 26 January 2023 at 16:00 – 27 January 2023 at 08:00

Impact: No water

Residents are again requested to observe level-1 water restrictions implemented from 1 September to 31 March, which prohibits the use of hosepipes to water gardens, wash cars, clean driveways but use grey water instead, fill up swimming pools and water features between 6 am and 6 pm. This is to ensure that systems are kept stable throughout the coming months. We urge residents to report any form of vandalism and theft of water infrastructure to 0800 00 25 87.

Residents are encouraged to subscribe on our website, to our SMS notification service for alerts on planned or unplanned service interruptions.
